Chennai, Tamil Nadu, India

As a dedicated full-time designer for the past 3 years, I have successfully completed numerous projects. I made business ideas that perfectly blend with the design. I love to simplify complexities, that's why I specialize in UI, giving the best to the users that they can access conveniently and productively. With all my till date expertise, I'm ready to showcase my skills and contribute meaningfully to the growth of both myself and the organization in the days ahead.

### WORK EXPERIENCE

**UI/UX DESIGNER | HECTOR INDIA TRADING PVT LTD** Dec 2023 - Present

- Validating the **conceptual design of our product** and making sure it meets user needs and expectations.
- Collaborated with cross-functional teams to gather feedback** from various departments, including development, marketing, and customer support, to refine designs and ensure they **meet the highest quality**.
- With all my expertise in UX/UI design, creating **interactive prototypes** that effectively validated requirements and conceptual designs, resulting in a notable **reduction in development time**.
- Researched ongoing trends** and user requirements, **suggesting to update designs** and making them stay ahead of industry trends, overall **enhancing the product's user experience and interface**.

**UI/UX DESIGNER | SWIPEWIRE TECHNOLOGIES** May 2022 - Dec 2023

- Successfully **designed 30+ User Interfaces for Web and Mobile Applications**.
- Applied **rapid testing** and **iteration methods** to refine designs that resulted in a **20% increase in user satisfaction**.
- Done **wireframes, prototypes, mockups, and visual designs** using Figma and design tools for Gaming, Fintech, and e-commerce websites.
- Analyzed competitors and **conducted User Research** to make a perfect design that best fits the requirements.
- Collaborated with cross-functional teams** to balance design and technical concerns in design.

**JUNIOR UX DESIGNER | ORGFARM SUPPLIES** Nov 2020 - May 2022

- Created **designs focusing on both UI and UX for both Web and App** projects that fit well with the project needs.
- I have given much preference to the project's requirements and **delivered results that surpassed their expectations**.
- Created **prototypes and mockups** and ensured the design was well aligned with project goals.
- Designed **Logos and Branding** materials which made the brand recognized among the target audience.
- Generated engaging **social media posts, banners, and Email Posters** that led to a 25% increase in User Engagement than usual.
