ABOUT ME

I am a multidisciplinary designer committed to human-centered design and the impact of technology on product design. With master's degrees in Transportation Design from Italy and Design and Innovation from Sweden, excelling in managing projects from start to finish. Knowledge of innovation, adaptability, strong communication skills while delivering exceptional results in both team and independent settings.

WORK EXPERIENCE

Content Creator Internship

September 2024 – March 2025

As an intern content creator for the Global Service Training (GST) team at Volvo Bussar AB, my role is to develop educational materials for Volvo Buses trainers. These trainers are responsible for repairing buses and rely on your content to grasp complex technical information.

My work involves creating clear and pedagogically effective materials that explain repair processes, technical details, and troubleshooting techniques. This helps the trainers deliver high-quality instruction to Aftermarket workshop technicians, ensuring effective bus maintenance and repair. Main tasks are simplifying complex CAD files into clean pedagogical 3D illustrations and animations.

3D Modeler Internship

September 2023 – January 2024

I worked as a 3D Modeler and Graphic Designer intern at PeckiiLess AB in Gothenburg, Sweden, where I gained valuable experience and improved my skills in the field. I led the creation of illustrations, contributed significantly to the value proposition, content and overall design layout.

Designer & Founder

August 2022 – April 2023

Registered and became an entrepreneur, founding ATDConsult in Göteborg. With support from Yesbox – Home of Entrepreneurs, I successfully overcame the challenges of starting a business.

UX Designer & Animator

March 2021 – September 2021

My role as an intern at Oaoh AB in Gothenburg, I delved into the UX world of user experience design and animation. It was a dynamic role that allowed me to explore my creative talents and contribute to exciting projects.

Graphic Designer Consultant

2014 – 2016

Worked as a design consultant in Harare, Zimbabwe, where I collaborated with diverse group of clients on print media projects. Managing all aspects of the business design, including branding, business cards, annual reports, client acquisition, project delivery, finances, marketing, websites and advertisements.

Automotive Design Master Thesis IED Internship

August 2013 – March 2014

As part of the IED Masters class, I had the opportunity to intern with Hyundai Europe, where we collaborated on the Hyundai Passocorto design study showcased at the Geneva International 2014.
